Singer Russell Jenkins Returns To Irma Alliance Church April 27th

Sunday, April 27th, brings again to the Irma Alliance Church, Russell Jenkins, tenor soloist, from Wales. Mr. Jenkins ministered in sacred song to packed congregations for three evenings in January and his return is greatly anticipated. As many of the public know, Mr. Jenkins is a gradusate of the National College of Musci, Wales, and has excellent recommendations from many of the leading voice trainers and evangelists of the British Isles, Europe and America. He rejected a tempting offer to work in the operatic field, choosing rather to use his talent in Gospel work. He will be present in the Irma Alliance Church at 11:30 a.m. and 8:00 p.m. as well as 3 p.m. in Viking.

The Weather . . .

The wind finally got moved from the east about a week ago and since then the drying-up process has been very rapid. Snow and mud are already all forgotten as the men folk prepare for spring work and the ladies for baby chicks and gardening. May all our "mext year" hopes be realized this coming summer.

DONATIONS

Donations in memory of the late Mrs. Mary Halvorsen have been received from Mr. Frank Allen to the Irma United church. From Mr. and Mrs. M. Ora-cheski to the Cancer Fund.

Land Packers:

Land Packers:

In most years the best seed germination and emergence will be on fields where the seed bed is firm and moist. The best way to get these conditions is by packing the soil properly. It is because of this that the press drill nearly always shows up as the best method of seeding. Proper use of a good set of packers will likely get you an increase of anywhere from two to five bushels per arce in yield and a much more uniform crop which will make for better harvesting conditions.

conditions.

Combine Straw:

An early trip over combined fields with a disc or tiller will be a big belo is getting straw under control. In some cases it may be necessary to use harrows to spread the straw limb. Don't just look at a field and decide it has to be burned. Every time you burn the straw off a field you cost yourself most work work the straw in and improve the tilth and moisture holding capacity of the soil so that it can produce better crops for you.

A NEW FARM SERVICE

The Canadian Veterinary Medical Association is issuing a news release service that will appear from time to time in this paper. Criticism and suggestions along these lines are always welcome and any farmer should address their letters to the Canadian Veterinary Medical Association, P.O. Box '416, Ottawa 2,

Experiments Show Value of Tranquilizer Drugs for Calves

Tranquiliser Drugs for Calves

The Canadian Veterinary Medical Association says that recent experiments in the United States have shown the value of having a veterinarian sometimes use immediately after they are weaned. The Association points out that beef calves from western ranges usually are removed from their native pastures, weaned, shipped and placed in strange feedlots within a few days. These events—coming in rapid order—can cause anxiety and physiological reactions which lower the resistance of the animals and make them more sus-eptible to shipping fever. Calves expectible to shipping fever. Calves mals and make them more sus-ceptible to shipping fever. Calves left on the ranch or farm often refuse feed and water for sever-al days after weaning and lose weight. The experiments showed that where the veterinaring gave the calves tranquilizers they made much better gains than untreated calves during the week after wearing. untreated calves d week after wearing.

THE DIESEL FIREMAN DISPUTE ON CANADIAN PACIFIC

TWO YEARS AGO, in April 1956 the Firemen's Union demanded wage increases and other benefits involving

AT THE SAME TIME Canadian Pacific proposed that, as firemen were not necessary, they should no longer be carried on diesel locomotives in freight and yard service.

CANADIAN PACIFIC also proposed dropping both arbitrary wage payments for which no service was rendered and differential wage rates in mountain territory.

IN DECEMBER 1956 a Federal Board of Conciliation recommended substantial wage increases and other benefits. Af the same time, it found that firemen were not required on diesel locomotives in freight and yard service and made provision for protection of their employment. It also found that payment of arbitraries and mo

CANADIAN PACIFIC accepted the Conciliation Board's report.

THE FIREMEN'S UNION rejected the report and called a strike on January 2, 1957.

THE STRIKE WAS ENDED on January 11, 1957 on the following basis

- Canadian Pacific agreed to pay the substantial wage increases retroactive to April 1 of the previous year and other benefits recommended by the Conciliation Board.
- The Union and Canadian Pacific agreed to refer the DIESEL ISSUE as well as payment of arbitraries and m differential to a ROYAL COMMISSION.
- The Union and Canadian Pacific agreed to negatiate these issues in the light of and immediately following the publication of the ROYAL COMMISSION'S Report.

THE KELLOCK ROYAL COMMISSION of three senior judges devoted ten months to hearing 119 witnesses and, at the request of the Firemen's Union, made on-the-ground investigations across Canada and also made observations on four major European railway systems. It was the most extensive and thorough investigation in the history of

IN ITS UNANIMOUS REPORT published February 4, 1958 the ROYAL COMMISSION found that:-

- 1. Firemen are not required on diesel locomotives in freight and yard service on Canadian Pacific either for safety or any other reas
- 2. The proposal of Canadian Pacific for protecting firemen from loss of employment and seniority is fair and gener 3. Arbitraries have become unrealistic and should be dropped and payment made on the basis of service rendered.
- 4. Mountain differential payments should be dropped and replaced by valley differential.

CANADIAN PACIFIC accepted the report of the KELLOCK ROYAL COMMISSION as it had undertaken to do en the Commission was appointed.

THE UNION rejected the report, stating that nothing in it was acceptable to them. They did so knowing that not one fireman would suffer loss of railway employment who was hired before the proposal to discontinue firemen on freight and yard diesels was made in April, 1956. All across Canada there are less than 100 firemen hired after that date and now working who face possible lay-off.

ALL EFFORTS of Canadian Pacific to settle the dispute through negotiations with the Firemen's Union have failed.

FOR TWO YEARS firemen have enjoyed substantial wage increases. During these two years action on the diesel issue has been postponed while the Union had every contention it could advance investigated by two enquiries.

CANADIAN PACIFIC has a duty to the public to operate the railway efficiently and economically

CANADIAN PACIFIC, to fulfill this duty, has given notice to the Firem n's Union that the findings of the KELLOCK

ROYAL COMMISSION will take effect on May 11, 1958.

THIS ACTION is in accordance with Federal labour law.

Under the provisions of the Municipal Districts Act
1954, the control of all public roads, highways, streets and
lanes within the said Municipal District is vested in the
Municipal District of Wainwright No. 61 and there is a duty
on the Municipal District or repair the said roads.

AND WHEREAS:

Under the provisions of the Public Service Vehicles Act
the Council may prohibit the use of any district road, toosal
road, or portion thereof by any truck, trailer, or traction
engine and the said Public Service Vehicles Act and the
Highways Traffie Board do not provide for the control as
contemplated in this Bylaw.

THEREFORE:
The Council of the Municipal District of Weinwright
No. 61 enacts as follows: The term "truck" shall include all trucks with a rated capacity of one ton or more and the term "tractor" shall include traction engines operated on wheels and also such motor vehicles as run on tracks.

and also such motor vehicles as run on tracks.

No person shall operate any truck, trailer, or tractor on any district road, local road or portion thereof without permission of the Councillor in the division in which the vehicle is operating during any rain storm or during a rainy season or at any time when the said vehicle breaks through the surface of the roadway reasses rutting or breaks chunks of road materials from the road bed.

of road materials from the road bed.

Any person or persons who are found guilty of a breas
of this Bylaw shall be guilty of an offence, and liable of
summary conviction for a first offence to a penalty of a
more than twenty-five (\$25.00) collars and costs, for a secon
offence to a penalty of not more than Fifty (\$50.00) dollar
and costs, for a third or subsequent offence to a penalty
out more than one hundred (\$100.00) dollars and costs.
